

Amendments to the Claims:

1. (Currently Amended) A pet blanket comprising:

a first layer of ~~a permeable material~~ cloth having an outer perimeter;

a second layer of a non-permeable material having an outer perimeter of substantially the same dimension as that of the first layer, the two layers being attached at their perimeters in a manner that forms a pocket from the first and second layers, and that provides an opening for access into the pocket;

a removable insert impregnated with one or more anti-flea agents situated situatable within the pocket; and

means for closing the opening to the pocket.
2. (Original) The pet blanket according to claim 1, wherein the first layer comprises a layer of wool, synthetic wool, fleece or fleece-type material.
3. (Original) The pet blanket according to claim 1, wherein the second layer comprises a layer of a waterproof material.
4. (Original) The pet blanket according to claim 3, wherein the waterproof material is chosen from a plastic laminate, plastic-coated cotton or plastic-coated nylon.
5. (Original) The pet blanket according to claim 4, wherein the waterproof material is polyvinyl chloride-coated nylon.
6. (Original) The pet blanket according to claim 1, wherein the insert comprises an material having reservoirs for the one or more anti-flea agents.
7. (Original) The pet blanket according to claim 6, wherein the insert comprises an open-cell or absorbent material.
8. (Original) The pet blanket according to claim 7, wherein the insert comprises an open-cell foam or foam-like material.

9. (Original) The pet blanket according to claim 8, wherein the insert comprises a polyurethane foam.
10. (Original) The pet blanket according to claim 7, wherein the insert comprises an absorbent material.
11. (Original) The pet blanket according to claim 10, wherein the insert comprises a natural cellulose or a synthetic polyester mesh.
12. (Original) The pet blanket according to claim 1, wherein the one or more anti-flea agents comprises a combination of anti-flea agents dispersed in an emollient ester-based mixture.
13. (Original) The pet blanket according to claim 12, wherein the combination of anti-flea agents comprises long-acting anti-flea agents, short-acting anti-flea agents or a combination thereof.
14. (Original) The pet blanket according to claim 12, wherein the combination of anti-flea agents comprises one or more anti-flea agents having insect growth regulator properties.
15. (Original) The pet blanket according to claim 14, wherein the one or more anti-flea agents having insect growth regulator properties comprises methoprene.
16. (Original) The pet blanket according to claim 12, wherein the combination of anti-flea agents comprises one or more anti-flea agents having adulticidal properties.
17. (Original) The pet blanket according to claim 16, wherein the one or more anti-flea agents having adulticidal properties comprises permethrin.
18. (Original) The pet blanket according to claim 12, wherein the combination of anti-flea agents comprises one or more anti-flea agents having insect growth regulator properties and one or more anti-flea agents having adulticidal properties.
19. (Original) The pet blanket according to claim 18, wherein the combination of anti-flea agents comprises methoprene and permethrin.

20. (Original) The pet blanket according to claim 1, wherein the one or more anti-flea agents comprises one or more of fipronil, lufenuron, imidacloprid, pyriproxyfen, diflubenzuron, telflubenzuron, triflumuron, flufenoxuron, hexaflumuron, buprofezin, pyrethrum, pyrethrin, pyrethroids, carbamates, or any combination thereof.
